Preface

The Fiscal Reference Tables provide annual data on the financial position of the federal and provincial governments. The data are presented on both a Public Accounts basis – corresponding to the accounting conventions used to report financial information to the respective legislatures – as well as on a National Accounts basis – as prepared by Statistics Canada and the Organisation for Economic Co-operation and Development.

For information or clarification, please contact Peter DeVries at (613) 996-7397, Fiscal Policy Division, Department of Finance, Ottawa, Ontario, K1A 0G5.

For inquiries about computerization and database management, please call Richard Hotte at (613) 992-6720.

[1] The fiscal policy stance estimates the amount, in percentage points, that changes in various budgetary components add to or subtract from nominal GDP growth. This measure includes the economic impact of cyclical factors (e.g. automatic stabilizers) and non-cyclical factors (e.g. discretionary fiscal measures).
